

Planet F

Hollow flat rail made of aluminum
Profile widths 35 and 50 mm

Mounting instructions:

- 1 Degreasing:** the Planet F and the floor must be free of grease and dust (alcohol) in the zone to be pasted.
- 2 Paste together:** apply silicone cement on the rail (e.g. Terostat-93)
- 3 Press procedure:** press the rail on the floor and remove possibly swelling cement in a clean manner. Load the rails by weights until the cement is well set (hard).
